
iMedRIS Downtime

How to Prepare for iMedRIS Downtime

Study Staff must maintain local copies of any iMedRIS study information that must be available when the iMedRIS system is unavailable, such as approved consent forms. Research Informatics in conjunction with the IRB office will make every effort to keep the system available. The IRB office will not maintain paper copies of iMedRIS studies.

How to Prepare for Planned Maintenance

Research Informatics in conjunction with the UTK IRB office will notify users in advance when system maintenance is planned. Before the planned maintenance begins, you should make copies of any study information that you anticipate you will need during the planned downtime.

iMedRIS Support

If your questions are not answered in this document or the other Guides available on the UTK IRB website:

1. Contact an IRB Analyst at 974-2474.
2. Contact Tricia Page, iMedRIS Program Manager at ppage@uthsc.edu.
