For the purpose of informing interested faculty, please be aware of the following opportunity. Please note that the other recipients of this announcement could be potential collaborators on this opportunity.

DOI-SM-254-10: Watershed Intern Program

The Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, is soliciting applications internships for college students who are currently studying in the fields of environmental and civil engineering, biological studies or other environmental-related fields and reclamation activities. Watershed organizations in the following states are eligible to participate: Alabama, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, Ohio, Oklahoma, Pennsylvania, Tennessee, Virginia, and West Virginia.

Each proposed watershed project must clearly enhance the sustainability of the watershed group; and must contribute directly to the fight against Acid Mine Drainage, the largest environmental challenge in the Appalachian coal fields. Projects could include, but are not limited to: watershed monitoring, watershed planning, grant writing, educational program development, community organization, and conceptual design for passive acid mine drainage remediation systems.

Each internship carries a $2,000 stipend for 12 weeks of full-time work by the intern and $500 for related expenses.

For detailed information about this opportunity (DOI-SM-254-10) please see the full opportunity here.

Deadline for Application to Agency: 9/30/2010
