NOT-HS-09-012: Notice of Intent to Publish a Request for Applications for Health Information Technology (IT) Projects Focused on Providing Integrated Services to Improve Health and Functioning in Older Adults

The Agency for Healthcare Research and Quality intends to publish a Demonstration Cooperative Agreement (U18) Funding Opportunity Announcement (FOA) to solicit applications from organizations that propose to carry out community-based participatory research on the use of communication and information focused technologies (IT) for improving health status and functionality of, and health-related services provided to, older adults. Further, a related focus is on applied research, with the objective of developing sustainable and reproducible strategies that will translate research into practice effectively and efficiently.

The FOA is expected to be published by the end of calendar year 2009

For more information about this announcement please see NOT-HS-09-012.
