For the purpose of informing interested faculty, please be aware of the following opportunity:

**NSF 08-514: Collaborative Research in Computational Neuroscience (CRCNS)**

The National Science Foundation, along with the National Institutes of Health, is soliciting proposals for the NSF/NIH Collaborative Research in Computational Neuroscience program. Through the CRCNS program, participating NSF Directorates and NIH Institutes support innovative interdisciplinary collaborative research to make significant advances in the understanding of nervous system function, mechanisms underlying nervous system disorders, and computational strategies used by the nervous system.

Two classes of proposals will be considered in response to this solicitation:

- **Research proposals** describing new collaborative research projects, and
- **Data sharing proposals** to enable sharing of data and other resources.

For detailed information, please see the full solicitation (NSF 08-514).

It is anticipated that $5M per year will be available to support 10-15 awards. Cost sharing is not required. Complete award information is found in the full solicitation.

**Deadline for Proposal to OR-Sponsored Programs: 11/10/2009**

(Please see the solicitation for complete application & submission information.)

Please contact Sponsored Programs (4-2402) with questions regarding proposal submission requirements.

**Deadline for Proposal Submission to Agency: 11/17/2009**

If you have any questions regarding this announcement please contact:
