Reminder concerning the following funding opportunity:

NSF-09-558: CISE Cross-Cutting Programs - FY 2010

This Directorate for Computer & Information Science and Engineering, National Science Foundation, *seeks proposals in cross-cutting areas that are scientifically timely, and that benefit from the intellectual contributions of researchers with expertise in a number of computing fields and/or sub-fields*. The cross-cutting programs for FY 2010 are:

- Data-intensive Computing;
- Network Science and Engineering; and
- Trustworthy Computing.

CISE expects that over time, these cross-cutting programs will evolve or be absorbed into the core programs, and that new cross-cutting programs will be introduced.

Two project classes are still open for submissions:

- Small Projects – Up to $500K total budget with durations up to three years; and
- Large Projects - $1,200,001 to $3M total budget with durations up to five years.

Please note that an individual may participate as PI, Co-PI or Senior Personnel in no more than two proposals submitted in response to this solicitation. For more information about this opportunity, including complete descriptions of the three programs and project classes, please see the full solicitation ([NSF 09-558](#)).

It is anticipated that $85M will be available to support 95-120 awards (please see the full solicitation for monetary and award breakdown for each program). Cost sharing is not required. Complete award information is found in the full solicitation.

**Deadline for Proposal to OR-Sponsored Programs:**
Please contact Sponsored Programs (4-2402) with questions regarding proposal submission requirements.
Large Projects  11/21/2009

Small Projects  12/10/2009

Deadline for Proposal Submission to Agency:
(November 1st is the earliest date for Large Project Proposal Submission; December 1st is the earliest date for Small Project Proposal Submission).

Large Projects  11/28/2009

Small Projects  12/17/2009
