For the purpose of informing interested faculty, please be aware of the following opportunity:

**NSF 09-573: Postdoctoral Research Fellowships in Biology**

The Directorate for Biological Sciences, National Science Foundation, is soliciting applications for Postdoctoral Research Fellowships in Biology to recent recipients of the doctoral degree for research and training in selected areas of biology supported by BIO and with special goals for human resource development in biology. The fellowships encourage independence at an early stage of the research career to permit Fellows to pursue their research and training goals in the most appropriate research locations regardless of the availability of funding for the Fellows at that site. For FY 2010, these BIO programs are (1) Broadening Participation in Biology and (2) Biological Informatics.

For detailed information, please see the full solicitation (NSF 09-573).

It is anticipated that $4M will be available to support 12 - 20 awards. Cost sharing is not required. Complete award information is found in the full solicitation.

**Deadline for Proposal to OR-Sponsored Programs:** 1/12/2010
(Please see the solicitation for complete application & submission information.)

Please contact Sponsored Programs (4-2402) with questions regarding proposal submission requirements.

**Deadline for Proposal Submission to Agency:** 1/19/2010

If you have any questions regarding this announcement please contact:
