(If you are interested in submitting for this opportunity please contact Dr. Bob Porter (reporter@utk.edu). This will enable the Office of Research to assist in areas such as team formation, partnership opportunities, etc.)

The National Science Foundation is soliciting proposals for the Expeditions in Computing Program. The Directorate for Computer and Information Science and Engineering (CISE) has created the Expeditions in Computing (Expeditions) program to provide the CISE research and education community with the opportunity to pursue ambitious, fundamental research agendas that promise to define the future of computing and information. In planning Expeditions, investigators are encouraged to come together within or across departments or institutions to combine their creative talents in the identification of compelling, transformative research agendas that promise disruptive innovations in computing and information for many years to come.

**A preliminary proposal is required.** Following the merit review of preliminary proposals, no more than twenty proposing teams will be invited to submit full proposals. NSF expects to notify proposers of the outcome of the preliminary proposal review...
process approximately four to five months after the preliminary proposal due date. Full proposals will be accepted **ONLY IF INVITED** by NSF. Unsolicited full proposals will be returned without review.

**To find more opportunities from this agency, please see [here](#).**

For detailed information about this opportunity please see the full solicitation. Please contact Sponsored Programs (4-5066) with questions regarding proposal submission requirements.

**If you have any questions regarding this announcement, please contact:**
