For the purpose of informing interested faculty, please be aware of the following opportunity. Please note that the other recipients of this announcement could be potential collaborators on this opportunity.

RFA-AI-10-005: Methods for Prevention Packages Program (MP3 II) (R01)

The National Institutes of Health is soliciting applications for multidisciplinary research programs that; (1) devise optimal HIV prevention packages (combination interventions) for specific populations, (2) perform pilot studies to demonstrate that the proposed prevention package is acceptable to the target population and the study design is appropriate and feasible, and (3) design clinical protocols to rigorously examine the safety and efficacy of these “packages” in the target population.

For detailed information about this opportunity please see the full solicitation (RFA-AI-10-005). To find more opportunities from this agency, please see here.

It is anticipated that approximately $2.5M will be available in FY 2011 to support 4 – 6 awards. Cost sharing is not required. Please see the full solicitation for complete award information.

Deadline for Proposal to OR-Sponsored Programs: 7/8/2010
(Please see the solicitation for complete application & submission information.)

Please contact Sponsored Programs (4-2402) with questions regarding proposal submission requirements.

Deadline for Proposal Submission to Agency: 7/15/2010
