For the purpose of informing interested faculty, please be aware of the following opportunity:

W912HZ09BAA02: U. S. Army Engineer Research & Development Center - Broad Agency Announcement

The U.S. Army Engineer Research and Development Center (ERDC), Department of Defense, is soliciting proposals for various research and development topic areas for the Coastal & Hydraulics, Geotechnical and Structures, Environmental, Information Technology, Construction Engineering Research, Cold Regions Research and Engineering Laboratories and the Topographic Engineering Center. For detailed information regarding these topic areas, please see the full solicitation (attached).

A pre-proposal is required for this opportunity. Organizations or individuals interested in submitting research proposals to ERDC are encouraged to make preliminary inquiries as to the general need for the type of research effort contemplated before expending extensive effort in preparing a detailed research proposal or submitting proprietary information. Proposals will be invited based on pre-proposal screening. Pre-proposals will be responded to within 60 days of receipt, either encouraging submission of a complete proposal or advising the offeror not to submit. The Office of Sponsored Programs requires that a yellow sheet be submitted for this pre-proposal.

Complete award information is found in the full solicitation. This opportunity is open until superseded.
